ISO 216

ISO 216 is a standard for paper sizes. It defines the dimensions of paper in millimeters and inches. The standard is based on the A series of paper sizes, which are defined by the ratio of their sides. The A series includes A0, A1, A2, A3, A4, A5, A6, A7, A8, A9, and A10. The dimensions of these paper sizes are given in the table below.

Size	Dimensions (mm)	Ratio	Dimensions (inches)
A0	297 × 420	1 : 1.414	11.7 × 16.5
A1	420 × 594	1 : 1.414	16.5 × 23.4
A2	594 × 841	1 : 1.414	23.4 × 33.1
A3	841 × 1191	1 : 1.414	33.1 × 47.2
A4	1191 × 1764	1 : 1.414	47.2 × 69.3
A5	1764 × 2540	1 : 1.414	69.3 × 100.0
A6	2540 × 3543	1 : 1.414	100.0 × 139.4
A7	3543 × 5000	1 : 1.414	139.4 × 196.9
A8	5000 × 7049	1 : 1.414	196.9 × 278.4
A9	7049 × 9948	1 : 1.414	278.4 × 393.7
A10	9948 × 13989	1 : 1.414	393.7 × 555.1

The A series of paper sizes is defined by the ratio of their sides. The ratio is 1 : 1.414, which is the square root of 2. This ratio ensures that the paper can be folded in half repeatedly without changing the aspect ratio. The A series includes A0, A1, A2, A3, A4, A5, A6, A7, A8, A9, and A10. The dimensions of these paper sizes are given in the table below.

ISO A 1 : 1.414 is the standard for paper sizes. It defines the dimensions of paper in millimeters and inches. The standard is based on the A series of paper sizes, which are defined by the ratio of their sides. The A series includes A0, A1, A2, A3, A4, A5, A6, A7, A8, A9, and A10. The dimensions of these paper sizes are given in the table below.
