PET (Polyethylene Terephthalate) "Mylar" is a common material used for stencils. It is available in various thicknesses, typically ranging from 7.5 to 25 mil (0.0075 to 0.025 inches). Stencils Online provides a list of available thicknesses: 7.5, 10, 14, 15 to 25 mil. The thickness of the PET material can affect the durability and flexibility of the stencil.
